

Women's March Global works as a volunteer-led global organisation to support our network of chapters and members to mobilise and assemble impactful actions in support of women's human rights. We are a global network of independent chapters in over 30 countries around the world.

It is with sadness that we announce that we have terminated the chapter agreement with Women's March London. We stand with the women and allies that make up the volunteers of Women's March London. Women's March London has organized several important events in its four-year history. However, in recent months there have been internal issues within the London chapter. We hoped that we could work as part of a collective effort to find a solution for a way forward. That was not the case. This particular situation has shown us the importance of having clear processes and best practices in helping support our independent chapters in their critical work.

We will continue to support the women human rights activists around the world including in London. We take this work very seriously and continue to commit to ensuring that we build and support a global intersectional movement in support of women's human rights.
